OBJECTIVE

AI Automation Specialist with hands-on experience building and deploying end-to-end automated workflows using **n8n**, **Make**, **REST APIs**, and **Webhooks**. Proficient in **prompt engineering** and AI-assisted development to integrate intelligent agents into business systems. Proven ability to eliminate manual bottlenecks, reduce operational overhead, and deliver robust, scalable automation solutions on time.

EDUCATION

Bachelor of Physical Therapy (B.Sc.) — Faculty of Physical Therapy, Kafr El-Sheikh University

• **Status:** Undergraduate (Expected Graduation: 2029) | **General Grade:** Very Good (GPA: 3.65)

EXPERIENCE

AI Automation Specialist (Trainee)

June 2026 – Present

Digital Egypt Pioneers Initiative (DEPI) – AI Automation Track (eYouth / MCIT)

- Architected and implemented production-ready automated workflows using n8n and Make to eliminate manual business tasks.
- Developed secure API integrations, webhooks triggers, and automated multi-source data processing pipelines.
- Integrated custom AI prompt engineering workflows with automated systems to handle dynamic business responses.

COURSES & CERTIFICATIONS

- AI Automation & Integration Track** – Digital Egypt Pioneers Initiative (DEPI) – MCIT / eYouth (2026)
- Oracle AI for You** – Oracle MyLearn – Official Achievement Badge & Certificate (2026)
- Applied Prompt Engineering & Agent Systems** – Hands-on Practical Training & LLM Workflows (2026)
- Supabase Fundamentals & Backend Integration** – Self-Paced Training & Database Architecture (2026)

TECHNICAL SKILLS

- Workflow Automation:** n8n, Make, REST APIs, Custom Webhooks, JSON Data Parsing, OAuth2
- AI & Backend Development:** Prompt Engineering, AI Agents, Vibe Coding, Cursor, Firebase, Supabase
- Hardware & Embedded Systems:** ESP32, EasyEDA, PlatformIO, VS Code, Git/GitHub

SOFT SKILLS

- Analytical Problem Solving & Troubleshooting
- Critical Thinking & Workflow Optimization
- Rapid Learning & Adaptability to New Technologies
- Time Management & Task Prioritization
- Cross-functional Teamwork & Professional Communication

LANGUAGES

- **Arabic:** Native Speaker
- **English:** Intermediate (B1)
- **French:** Beginner (A1)

PROJECTS

TheraDe – Portable Thermal Sensory Stimulation Device (In Advanced Development)

- **Project Description:** Designing and prototyping a closed-loop medical stimulation system for sensory threshold evaluation and neuro-rehabilitation therapy with real-time temperature regulation.
- **Tools:** ESP32, Peltier Module, DRV8873H, PlatformIO (C++), EasyEDA, Feedback Sensors.

QGame – Interactive Social Trivia Web Application

- **Project Description:** A real-time interactive web quiz platform allowing friends to generate customized questions, compare answers, and test interpersonal knowledge in an engaging UI.
- **Tools:** JavaScript, Firebase Hosting & Database, HTML5/CSS3.
- **Live Demo:** <https://qgame-30129.web.app/>
